# FOUL ODOURS ELIMINATOR

Nu-Odor Freshness

---

08//2013

# APPLICATIONS

Developed to ELIMINATE the bad odours coming from garbage, organic matter, smoke and waste material.

- Garbage compactors
- Garbage bins
- Any other source of bad odours from organic matter.

# FEATURES

---

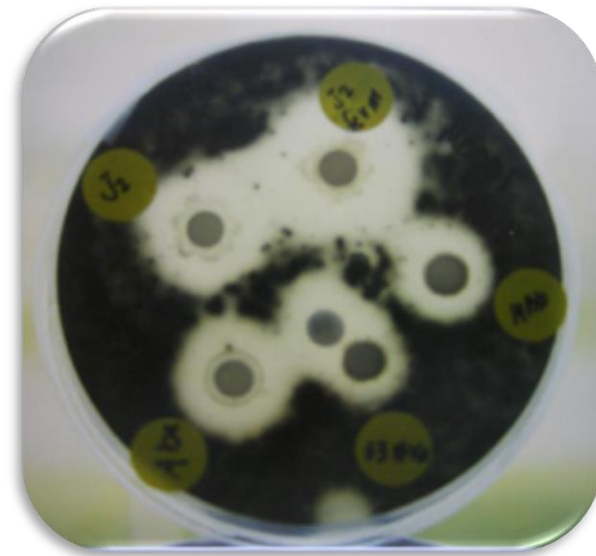

- High performance
- Ultra specialized bacteria
- Long lasting performance
- Neutral pH
- Not corrosive
- Not irritant
- No noxious vapors
- Safe for people, surfaces, equipment and safe for the environment.
- Certified ECOLOGO
- Completely biodegradable

# APPLICATIONS

## Mode of Action

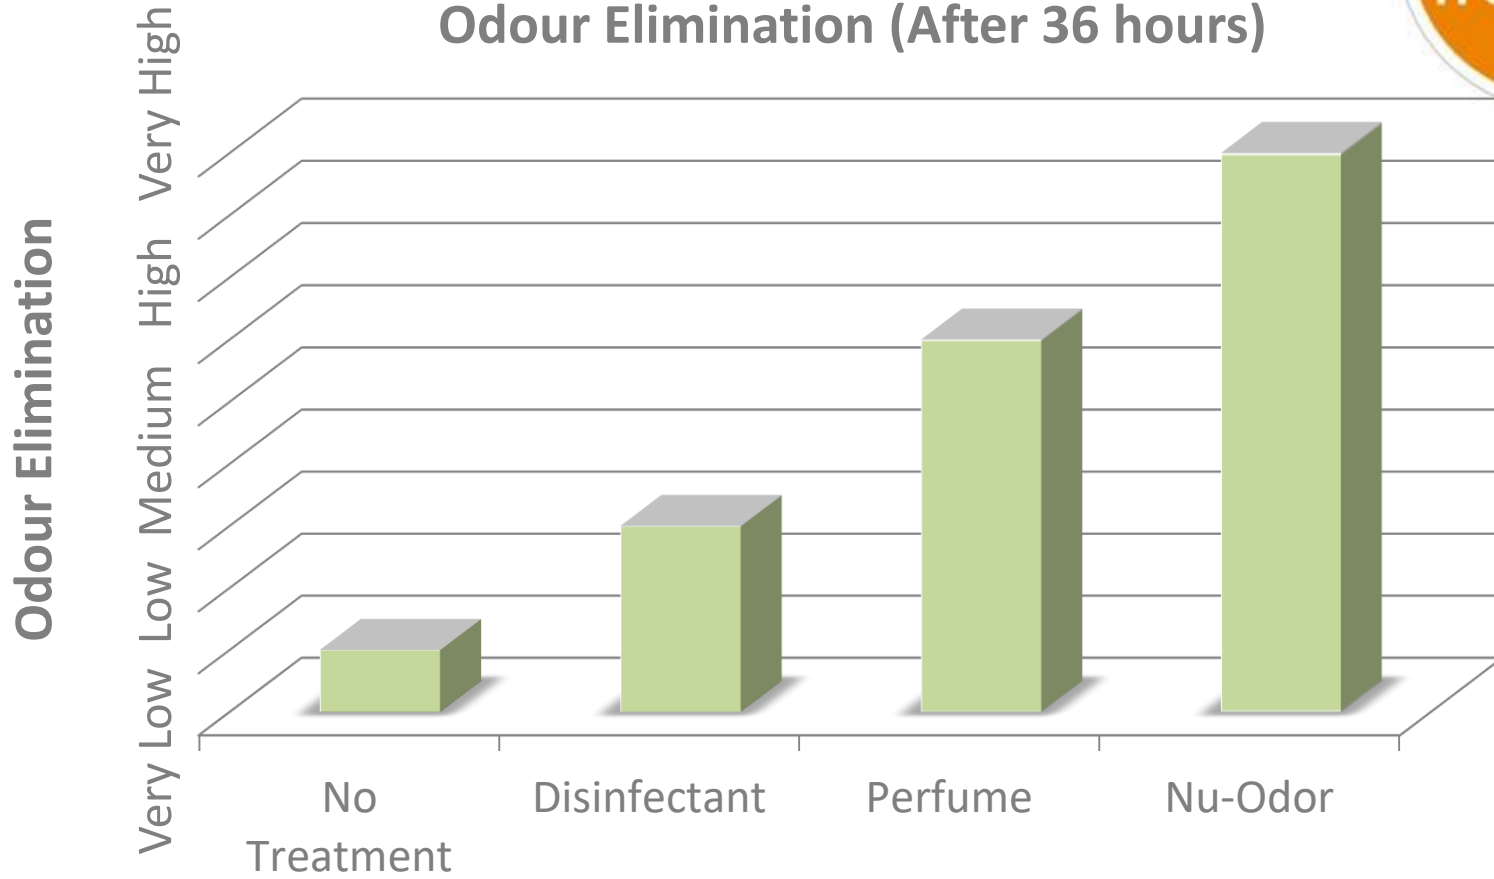

- 1) A light perfume provides instant bad odour masking action.
- 2) The ultra specialized bacteria then activate and start growing in organic waste. They compete against the bad bacteria to eliminate bad odors.

# PERFORMANCE DATA

## Odour Elimination (After 36 hours)

# BENEFITS

---

- Easy to use
- Cost effective
- More than 80% elimination of bad odors.
- The most environmental and effective way to control bad odors.
- Long lasting performances
- Effective even in the worst conditions – high temperature and high humidity.
- Problem solver
