■ ALL SURFACE DEGREASER

Description

Nu-Action 3™ is a powerful biotechnology-based degreaser designed to remove stubborn stains, and to quickly deep-clean and degrease any surface.

Applications

Nu-Action 3™ is ideal for tough cleaning jobs in schools, administrative offices and public spaces. **Nu-Action 3™** is a pH-neutral degreaser that can also be used to clean protective flooring. **FOR PROFESSIONAL USE.**

Directions

Nu-Action 3™ is a concentrated cleaner. Dilute with cold water in a bucket or a spray bottle. Wipe surfaces with a microfiber cloth, a soft scrub pad, a brush or a flat mop head. Requires no rinsing. It can also be used in an automatic scrubber.

Dirty, stained surfaces: ① Dilute at 1:20 in a spray bottle or bucket. ② Apply the cleaning solution to the surfaces to be cleaned. ③ Scrub with a soft towel then remove any excess cleaning solution. ④ For especially resistant stains, a scouring pad may help.

Floors - Routine cleaning - with a mop: ① Dilute at 1:400 in a bucket. ② Apply the solution liberally with a flat mop. ③ Wipe up any excess cleaning solution. For heavy soiled floors: Rub or scrub with a brush. Let stand 10 minutes before wiping excess.

Floors - Routine cleaning - with an automatic scrubber: ① Sweep up any dust or litter from the floor. ② Dilute at 1:600 in the automatic scrubber's cleaning solution reservoir. ③ Clean the floors, making sure the machine removes the cleaning solution properly.

Scouring or deep cleaning: ① Dilute at 1:100 in a bucket. ② Apply the solution liberally with a flat mop. ③ Use the scrubbing machine with desired pad ④ Wipe up any residues with a mop or an aspirator.

Cleaning tips

Always clean from the cleanest to the dirtiest area and from the top to the bottom ■ Always work with clean, well-maintained tools ■ Follow the suggested dilutions ■ Use tools that will not damage surfaces ■ Never mix products.

Dilution table

1:20 - 1:400 - 1:600

5 - 0.25 - 0.16%

6.4 - 0.32 - 0.2oz./1gal.

■ ALL SURFACE DEGREASING

Respect for the environment

Tips for being greener

Follow the suggested procedures and solutions ■ Limit the use of disinfectants: adopt the principle of Rational Disinfection (for more information on this subject, ask your Innu-Science sales manager) ■ Train staff on the environmental impact of their work.

Environmental benefits

Reduced environmental stress ■ Low aquatic toxicity and readily biodegradable (according to OECD 301 series tests) ■ Reduced chemical waste ■ Concentrated product ■ Reduced transportation (GHG) and packaging ■ No VOCs: reduction of sick building syndrome ■ Reduced energy use (effective cleaning without hot water).

Fits perfectly into any organisation's efforts to be more eco-responsible by going green.

Technology

Nu-Action 3™ technology is based on combining readily biodegradable surfactants, active fermentative extracts and natural bacterial cultures. The precise combination of ingredients gets powerful cleaning results without the need for solvents or high pH levels. The fermentative extracts attack soil instead of emulsifying with it. And the bacterial cultures deep-clean even the hardest-to-reach places.

Composition

non-ionic surfactants, amphoteric surfactants, bacterial cultures, dye, fragrance, preservative. May contain enzymes.

Properties

Green liquid, lemon scent.

Regulatory compliance

Regulation (EC) No 648/2004 on Detergents

Regulation (EC) No 344/2005 on Ecolabel Criteria

Directive 1999/45/EC and Amendments on Dangerous Preparations

Regulation (EC) No 1907/2006, Annex II on Safety Data Sheets

REACH Regulation (EC) No 1907/2006

Irritating to the eyes.

Xi R36

Not regulated by the regulation on transport of dangerous goods.

Material safety data sheet available upon request. Read it before using this product.

Safety advice: S25 - Avoid contact with eyes. S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
